

Word Bank: An Incomplete List of Word in Need of Urgent Safeguarding

Overview: What you will find below is the product of my efforts to scour the internet for the most dynamic words that signify eloquence and suggest a well-developed vocabulary. During my research, I managed to acquire input from a few professors of literature, English teachers, and authors and have included their contributions in the list below. Note that the pricing tiers exist for no other reason than to categorize the words by their articulation value and challenge of usage. The steeper the pricing, the more powerful the word is considered to be and the harder it is to feature in conversation. When selecting a word to use or append to your *Communication Keys*, be sure to review its definition, pronunciation, and proper usage. Do not attempt to force the word in a sentence in a frivolous attempt to sound “smart”. It will backfire and make you seem less competent. My suggestion to you is to focus on building a quality foundation of language by reading and listening to articulate speakers employ these words appropriately.

\$10 Words

Distasteful	Astray	Cynical	Appalling
Bleak	Potent	Paramount	Myriad
Disarray	Symphony	Fathom	Sonder
Appetite	Remedy	Pacify	Exacerbate

\$100 Words
